

Triameen Y12D

The high performing, non-sensitizing biocide without MRL

Highly effective biocidal amine with broad spectrum microbiocidal properties

AkzoNobel Surface Chemistry is a leading producer of fatty amine based products

- Highly experienced technical and regulatory expert team giving quick and high value service and advice
- Support in BPR product registration with information needed to optimize the registration process, saving time and money.

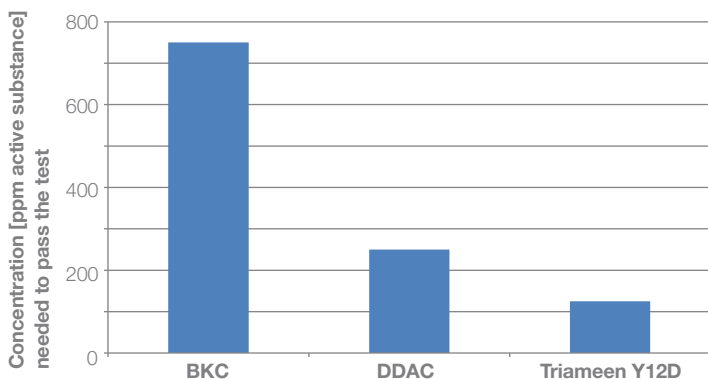

Triameen Y12D is highly effective for example against mycobacteria

Results EN 14348 (0,03% BSA (Bovine Serum Albumin)), contact time 60 minutes:

Mycobactericidal and Tuberculocidal at 600 ppm active substance

against Pseudomonas aeruginosa compared to quaternary ammonium compounds (quats)

Results EN 1276 (0,03% BSA), contact time 5 minutes:

BKC: C₁₂₋₁₆-alkyldimethylbenzylammonium chloride
DDAC: Didecyldimethylammonium chloride

against influenza virus H1N1

Results EN 14476 (0,03% BSA), contact time 10 minutes:

Effective at 300 ppm active substance

against Pseudomonas aeruginosa at short contact time

Results EN 1276 (0,03% BSA), contact time 15 seconds:

Effective at 450 ppm active substance

Structure of the Triameen Y12D molecule

Dodecyldipropylene triamine

BPR (Biocidal Products Regulation)

Authorization process is running for following PT (Product Types):

- disinfection use (PT 2, 3, 4)
- preservative use (PT 6, 11, 12, 13)

Specifically suitable for disinfection of food contact surfaces

- usual concentrations are safe regarding indirect food contact
- on the "French positive list"
- no MRL (Maximum Residue Limit)

Specifically suitable for preservation of technical products

- free of aldehydes and halogens
- not a sensitizer
- on BfR (German Federal Institute for Risk Assessment) recommendations on Food Contact Materials
 - XIV: Polymer dispersions for coating commodities
 - XXXVI: Paper and board

Triameen Y12D is not a quat and therefore shows much better compatibility with anionics.

AkzoNobel creates everyday essentials to make people's lives more liveable and inspiring. As a leading global paints and coatings company and a major producer of specialty chemicals, we supply essential ingredients, essential protection and essential color to industries and consumers worldwide. Backed by a pioneering heritage, our innovative products and sustainable technologies are designed to meet the growing demands of our fast-changing planet, while making life easier. Headquartered in Amsterdam, the Netherlands, we have approximately 45,000 people in around 80 countries, while our portfolio includes well-known brands such as Dulux, Sikkens, International, Interpon and Eka. Consistently ranked as a leader in sustainability, we are dedicated to energizing cities and communities while creating a protected, colorful world where life is improved by what we do.
