

# Berol<sup>®</sup> ENV226 Plus

The ultimate core of high performance cleaning

## AkzoNobel

Smart surfactant system – Ultra-high performance, cost-effective, versatile. Berol ENV226 Plus is an industry-leading readily biodegradable and powerful surfactant system delivering highly efficient cleaning.

The smart chemistry of Berol ENV226 Plus provides the best solution for industrial and household cleaning applications. It is the heart of high-performance cleaning formulations.

### Less chemicals, more chemistry

- Excellent cleaning even at very low concentrations
- Multi-functional product – Perfect combination of strong wetting, powerful emulsifying and excellent dispersing properties
- Unique synergy of powerful surfactants and cleaning boosters
- Exceptional cleaning of fat/oil and particulate soils on hard surfaces

### Versatile cleaning applications

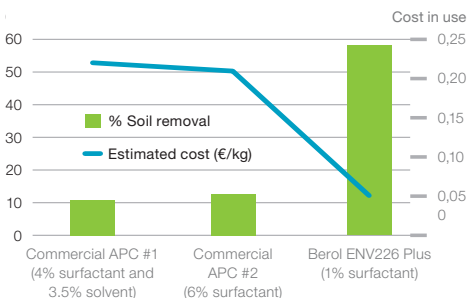

The powerful cleaning performance of Berol ENV226 Plus is used for a wide range of applications:

- Household cleaning – floor, kitchen, bathroom
- Institutional cleaning – hospitality, health care, restaurants
- Industrial cleaning – metal degreasing, engine cleaning, vehicle cleaning
- Water-based multi-purpose hard surface cleaning

### The formulator's delight

- Makes your life easier – proven technology
- First choice for your cleaning portfolio
- Progressive customers use Berol ENV226 Plus for routine to the most challenging cleaning tasks

### Comparative performance of Berol ENV226 Plus vs. commercial all-purpose cleaners

### Berol ENV226 Plus solves your cleaning challenges

- Delivers great cleaning performance
- Outperforms conventional surfactants
- Addresses difficult or complex formulation needs
- Reduces inventory complexity and quantity
- Reduces or eliminates the need for hazardous solvents

### Test Berol ENV226 Plus now to achieve

- High-performance cleaning
- Cost-effective formulations
- Universal applications – expand your product portfolio
- Differentiating end-products – accelerate your business
- Consistent results
